Learn from heavy rainfall in Asakura City of Fukuoka Prefecture on July 5, 2017 <i>Haruhiko YAMAMOTO</i>	1
Characteristics of agricultural damage based on land use transition in Asakura City, Fukuoka Prefecture induced by heavy rainfall in Northern Kyusyu District on July 5,2017. <i>Nao YAMASHITA, Haruhiko YAMAMOTO, Toshiaki YAMASAKI, Kyoko SAKAMOTO</i>	5
Emergency estimation of deposited soil depth after North Kyushu flood disaster, July 2017 <i>Hajime SHIROZU, Koji ASAI</i>	9
Numerical Simulation on Formation of Band-Shaped Precipitations over West-Chugoku Region In July 2017 <i>Yusuke MITSUI, Kenji TANAKA, Hajime SHIROZU, Koji ASA</i>	13
Meteorological condition of the secondary oscillations observed in west Japan in early January, 2018 <i>Kenji TANAKA</i>	17
Numerical experiment on harbor resonance of the secondary oscillations due to tidal phase <i>Munehiro SHIMIZU, Kenji TANAKA</i>	21
Effectiveness of Disaster Prevention Education on Elementary and Junior High School Students in Migita District, Hofu City Comparison of Questionnaire Results of Disaster Prevention Education for 2011 and 2017. <i>Naoki MEYAMA and Makoto OHISHI</i>	25
Preliminary evaluation of tsunami evacuation route reliability based on street block wall survey - Case study in Tahara city, Aichi Prefecture - <i>Hitomi MURAKAMI, Ayaka HISHIKAWA, Kazuyuki TAKADA, Maki KOYAMA</i>	29
Collection of community disaster knowledge using cultural probe method - Case study in Hinase area, Bizen city, Okayama prefecture - <i>Takamasa YAMASAKI, Hitomi MURAKAMI</i>	33
Estimation of occurrence frequency of debris flows using radiocarbon dating at Asaminami and Asakita Districts in Hiroshima City affected by sediment disaster in August 2014 <i>Tatsumi SHIGA, Satoru KATAOKA, Motoyuki SUZUKI, Kyoko KAGOHARA, Kazuyuki SAKAGUCHI, Hiroaki MATSUGI</i>	37
Factor analysis of the rice planting expansion in cold region of Northeastern China Part 3 Impact evaluation of global warming on expansion of rice cropping term and reduction of cold hazard risk <i>Toshiaki YAMASAKI, Haruhiko YAMAMOTO, Xiufeng WANG, Naru TAKAYAMA</i>	41
Rain enhancement and solid particle distributions in precipitating clouds <i>Kenji SUZUKI</i>	45
Ground validation of GPM/DPR rain type classification algorithm by ground-based direct observations <i>Rimpei KAMAMOTO, Kenji SUZUKI, Katsuhiko NAKAGAWA, Yuki KANEKO</i>	49
Analysis of long-term variability of precipitation in Inner Mongolia, China <i>Shingo NANKE, Haruhiko YAMAMOTO, Toshiaki YAMASAKI, Naru TAKAYAMA, Xiufeng WANG</i>	51
